Acknowledgment of Major Issues

There are a few things that we feel it is very important that you know before enrolling your child. Please read the items below before signing the acknowledgement.

- The school reserves the right to place your child in the grade it deems appropriate. This means we may place your child in an English Learning Center class until they have sufficient English to join the mainstream. It also means due to age and ability, we may require a child to repeat a grade they may have completed in another country or previous school.
- If an English language learner is enrolled to enter high school, the highest grade they will enter will most likely be grade 9, as university preparation requires 4 full years.
- English language learners may need up to 2 years of English language training prior to full inclusion to the mainstream classes.
- If it is determined that your child is not receiving appropriate parental or guardianship care while enrolled they may be asked to be withdrawn from the school.
- Unless otherwise advised in writing, you give permission for photographs of your child to be used in the school's promotional materials, its website and on school literature, as may be occasionally required for school promotional and community purposes.
- You have read, understood and agreed to our school's financial policy from the application package, and in particular understand our refund policy.

I acknowledge the school has informed me of the above important issues.

Accommodating specific student needs

If at any time, there are indications that your child requires special services or support, the Student Support Panel, in each division (see parent handbooks), will evaluate the specific needs of your child and make detailed recommendations within the scope of the school's resources. A support plan will then be implemented and parents are expected to follow the plan. In order to ensure success, it is essential that you, as parents, work cooperatively with the school. The expectation is that parents will follow through with home interventions/adaptations or the procurement of outside professional services, as outlined in the plan.

If parents refuse to follow the school required recommendations, the school reserves the right to exit the child from TIS, without question.

Recommendations may include but are not limited to:

- Accommodations in learning or change in class placement
- Home interventions/Adaptation
- Support from the Special Needs Teacher
- Procurement of outside professional services

In cases where the type and/or degree of resource(s) needed for a particular student is deemed outside the scope of the school's resources, the school reserves the right to exit the child from TIS, without question.
