

Teda International School

VISION

At Teda International School, we believe that education alone enables the individual to manifest his or her innate treasures, and enables mankind to benefit there from. Each child is acknowledged to be fundamentally a social being capable of harmonious interaction with others. We embrace the concepts that all people are worthy and deserving of respect, regardless of native origin, socio-economic status, or ethnicity. The ESLRs (Expected School-Wide Learning Results) are the foundation of our school's educational philosophy.

MISSION STATEMENT

The TIS mission is to develop global citizens within our culturally diverse community through a multifaceted program developing scholarship, leadership, character, and service to others.

In order to successfully accomplish this mission, TIS students will work to accomplish the expected school-wide learning results.

T.I.S Philosophy of Learning

TIS believes that an educational environment should promote learning, be child-centered, lead to thoughtful and discerning decision making and provide an atmosphere in which students have an opportunity to demonstrate tolerance, understanding and appreciation for that which is different and diverse. Keeping in mind that learning should be connected to real life experiences, TIS aims to provide meaningful learning experiences that encourage individual thought, creative and critical thinking, and sharing of ideas that will cause students to question and evaluate information. The family is of vital importance in the development of the child, and parents, students and teachers have a shared responsibility for a child's learning. Therefore, TIS aims to be an environment where teachers offer the stimulation, guidance and environment that will motivate students to attain academic excellence, and enable them to become responsible citizens and lifelong learners in an environment where they become constructive and healthy human beings.

Expected School-Wide Learning Results(ESLRs)

These 7 characteristics are explicitly taught and fostered in Primary classrooms as the foundation of effective learning and citizenship.

Good Character

Students will have an increased ability to demonstrate human qualities and virtues

Global Citizenship

Students will act for the good of the planet and humanity

Communication

Students will express ideas effectively and pay considerate attention to the ideas of others

Creativity

Students will demonstrate imagination to make or do something original

Critical Thinking

Students will demonstrate curiosity and a willingness to question in order to further understanding

Problem-Solving Ability

Students will investigate problems from several angles to come up with the best solution

Knowledge-Seekers

Students will be self-directed, enthusiastic and engaged learners who desire knowledge

Dragon House System

Each of our TIS Primary students are allocated to a Dragon House upon enrolment. Being part of a Dragon House fosters a sense of belonging and promotes positive relationships between children of different grades.

Reflecting both our host country, and the strength of our school, each House is represented by a dragon. Each dragon in turn represents one of the Four Elements, and their corresponding characteristics.

Fire

Water

Earth

Wood

Students can gain dragon points, both individually and collectively for their Dragon House, through demonstrating our core values and participating in various activities/events held at the school.

Dragon Houses promote healthy competition and give our students the opportunity to mentor and encourage other with a great deal of fun and enjoyment.

The Dragon House system connects to the Virtues and ESLR (Expected School Wide Learning Results) programs, providing a constant reminder of the importance of good character in all that we do.

T.I.S Primary

TIS Primary celebrates staff and students from many different countries. Each student contributes the richness of their culture, their strengths and their interests to the classroom. Our teachers are committed to seeing your child as a unique individual who is learning and growing in their own special way. The children will have many opportunities to grow; in the classroom, on the sports field, in performances and through service. Specialty classes and after school activities give

students a variety of learning opportunities. The Chinese language program provides the opportunity for students to enjoy the cultural richness of the host country.

Curriculum

TIS curriculum is designed to focus on three important aspects of learning and development.

1. We want children to understand that good character is the foundation of a successful life. The Virtues in Action program keeps us mindful of what it means to be a thoughtful and caring individual.
2. Children develop skills in critical thinking and problem solving that will enable them to be successful contributors throughout their lives.
3. Children explore areas of content so they can grow in understanding about the world we live in. Our learning programs are well-respected and support our second language learners as well as extend our fluent English learners.

Language

All Primary students complete an English language assessment on enrolment. This provides important information regarding the level of language support required by each child, both in the English Language Centre and in the classroom.

Parent involvement

Teda is a relatively small educational community and parents are a very important part of school life. The success of our programs depends on having a strong partnership with you, our families. We hope every family will volunteer and be involved in the PFA, parent liaison, clubs, sports, classroom activities, fundraising or committees. Your child needs you! We need you!

Assessment

TIS Primary assessment is standards-based. Your child's report card is designed to present a clear picture of progress throughout each of the four terms. Parent conferences are scheduled at the end of each Term. However, your child's teacher will be happy to meet with you as often as is necessary.

In addition, students from Grades 1-5 complete the Measure of Academic Progress three times per year.

Assembly

TIS Primary has a monthly assembly where we celebrate the Virtue of the Month and enjoy performances by various classes. Parents are invited to join us in the Primary Activity room. Please check the PS calendar on www.tedais.org for details.

Welcome to Grade 2

As your child's homeroom teacher, I am the first point of contact for the social, emotional and academic needs of your child. Please do not hesitate to contact me either via your child's homework journal or in conversation. I welcome your ongoing input as we work together.

Mr. Falzerano

English Language **The School Day**

Teacher

Mrs. Moallem

Each day begins and ends with a short Homeroom period. During the morning homeroom, attendance is taken, general class announcements made and children prepare for the morning's activities. Communications from home to school will be noted at this time. The afternoon homeroom ensures that students are well prepared with any homework requirements and communications from the teacher.

Homeroom

Mr. Falzerano

Assistant

Ms. Effie
Sun, Jie

Daily Routine

The day begins at 8:00am. When children enter the classroom, they are responsible for unpacking their bags, handing in homework and checking any feedback from yesterday's lessons. The Primary schedule is organized so that literacy and numeracy studies occupy the first part of the day. In this way, we maximize learning in the core skills. At mid-morning, the children are given the opportunity to have a small snack and an outside break. Children are asked to bring a healthy snack every day, such as fruits. At lunchtime, children may bring their own lunches or choose to eat food purchased in the cafeteria.

Grade 2 students attending after school activities will be escorted to the after school club location by the class TA or designated adult. Students who are not participating in an after school club are to be collected from outside the primary building by a supervising adult, older sibling or designated student.

The teacher and/or Primary Office must be notified if your arrangements for collecting your child after school change for a particular reason. Students will not be released to an 'undesigned' person.

Assistant

Ms. Emily
Liu, Jing

Schedule

Class Schedules will be available at the start of August. They will be included in the welcome letter from your homeroom teacher.

Homework

Homework may be set for the purpose of practice, preparation or extension. It is expected that the teacher and the family will work together to assist students in completing homework expectations as set out in the TIS Primary Homework Policy.

Grade 2 expectations are as follows

*Five 20 minute assignments per week (numeracy, literacy, spelling, occasional other subjects)
PLUS 15 minutes of daily reading*

Parent participation

During the year, Grade 2 will present at several assemblies and parents are welcome to attend. Grade 2 will also go on a camp out and parents, and will be requested to assist with this activity. In Term 4, the class will attend weekly swimming lessons and we ask parents to volunteer as part of ensuring safety in and out of the water for all students. A newsletter is sent home every two weeks and various activities are listed on the letter as to how parents can assist in their child's learning during each unit of work.

Special Events

Each year, TIS hosts several school activities to which parents are invited. These events include the annual Talent Show, End of year show, Sports Day and Children's Day. In addition, there are regular Dragon House activity days, Book Fairs and celebrations of learning. Information regarding these events will be posted in the Weekly Bulletin, as well as in classroom newsletters and on the school website.

Staying in touch with parents

It is very important that we have your up-to-date contact details. Please let us know if you change your phone number or email address. We want to keep in touch.

New parent orientation

New parent orientation sessions are held on the same day as entrance testing for new students, usually in the week before school starts. A team, including the Headmaster, Primary Principal, and returning parents will introduce you to Life at TIS. As part of the orientation, there will be a Q & A session hosted by TIS parents.

Meet the Teacher

On Meet the Teacher Night all TIS families are invited into the classroom to meet the teacher and explore the learning environment. Teachers will take the opportunity to share behavior expectations, homework information and ways that parents can support learning.

Parent Teacher interviews

Formal parent-teacher-child interviews will be held in Term 1 so that you can discuss your child's progress and next steps. In Term 3, we have Student Led Conferences when your child will share with you the many skills and concepts they have learned.

From time to time, you may wish to have a private conversation with your child's teacher or with the Primary Principal. Parents are welcome to make an interview by requesting it through the teacher or TA, or by phoning the Primary Office 66226158 ext 6505.

Open House in the Principal's Office

Regular get-togethers are scheduled for each section of the Primary School so that parents can meet in an informal setting to discuss key issues in education and learning. Topics of interest are wide-ranging and can be suggested by parents.

Classroom celebrations

Once each term, we will hold a celebration of learning to which you are invited. Information will be included in the class newsletter.

Behavior policy

At TIS, we believe that a positive learning environment enhances effective learning. Our teachers are committed to facilitating student growth. In situations where children experience ongoing challenges, collaboration between school and family is essential.

The following citizenship standards from the TIS curriculum establish our overall expectations for social behavior.

- C1. Communicate appropriately with peers and adults.
- C2. Contribute positively and creatively to the school learning community.
- C3. Appreciate and respect the diversity and unity of multicultural environments.
- C4. Demonstrate responsible behavior towards society and the environment

For further detail, please refer to the TIS Primary Behavior Procedures on www.tedais.org

Curriculum

Language Arts

Language Arts consists of reading, writing, oral language (listening & speaking skills), and visual language (viewing & presenting). In Grade 2, the focus is consolidating reading skills and communicating ideas clearly whether in speaking, writing or presentation. Writing skills are developed and strengthened using the 6 Traits + 1 writing model.

Term	Reading	Writing	Oral Skills	Presentation
1	Decoding strategies Elements of Stories	Full sentences and Paragraph Writing	Listening- attending skills Speaking-share personal news to small group	Viewing-attend to work Presenting- handwriting
2	Poetry and Character Study	Letters and Poetry	Listening- comprehension Speaking – Poetry	Viewing-describe features Presenting – handwriting, publishing own work
3	Non Fiction and Differing Text Types	Narrative Writing	Listening - clarify/ask questions Speaking to an audience, Oral reports	Viewing-explain choice of features Presenting- handwriting, Illustrating own work
4	Role Playing and Chapter Books	Creative Writing; Chapter Stories	Reader's Theater and Role Plays.	Viewing-evaluate features Presenting- handwriting

Reading program

The reading program has three main aspects. The first is the leveled reading program (Ginn and Big Cat Readers). It develops the processes, skills and behaviors of competent learners in leveled reading groups. The second is Accelerated Reader which is a more independent program and enhances personal reading using our library's vast resources. Children read books from the library and complete online comprehension quizzes at school. Parents can log onto AR Home Connect through the TIS website to keep apprised of their child's progress. The third is home reading. Each night children are required to Read at Home to increase their knowledge of a variety of literature and to enjoy reading for pleasure. Raz-Kids and Starfall are two online reading resources that some teachers use and can be accessed at home.

Handwriting

Kindergarten through Grade 5 students are expected to develop fluent, legible handwriting. In Kindergarten, there is a greater emphasis on developing fine motor skills in print. Grade 2 through Grade 5 develop greater fluency in both print and cursive writing.

Mathematics

In Grade 2, through small and large group activities, as well as independent work, children are encouraged to become logical thinkers using a variety of strategies to solve mathematical problems. The main focus in math homework is learning basic facts. Students progress through these at their own pace with a test each week.

Term	Units of work
1	Basic Facts Number, Addition & Subtraction
2	Basic Facts Multiplication & Division
3	Basic Facts Length Money Fractions Time
4	Basic Facts Volume Graphs Geometry Review Operations

Science

In Grade 2 students are encouraged to develop good scientific thinking. They are expected to observe, question, and suggest theories for how things work and why things happen. It is important at this level that students wonder why and ask questions about the world around them.

Term	Units of work
1	Life Systems: Identify/classify plants & animals Life cycles Parts of plants Responses to environment
2	Earth & Space: Earth surface features Air & water in environment Weather/climate

3	Matter & Energy: Liquids/solids Physical/chemical changes Mixtures
4	Protecting earth's resources Energy from wind and water Energy type and use (focus on Sound) Structures & Mechanisms: Simple machines Movement using simple mechanisms

Social Studies

Through these units students are encouraged to explore the world of people and their needs and the ways those are fulfilled in social organizations. The students are encouraged to develop respect for other cultures and understanding of the similarities and differences between cultures.

Term	Units of work
1	Where we've come from How communities differ
2	Maps and Globes Around the world
3	Changes from past to present
4	Our environment: Changes Human impact Caring for the environment

Language Support

Learning English is important. It is the language of instruction and it is also essential for developing social connections. The English Language Centre supports students as they settle into school life, prepare to transition into mainstream classes and also after transition as they consolidate essential language skills. ELC teachers work with the mainstream teacher and the support teacher to provide the best means of developing skills in reading, writing, listening and speaking in a nurturing environment.

Speaking

Speaking is the key to developing confidence as an English language learner. In ELC classes, students develop communication skills and fluency in a safe and nurturing environment. They participate in a variety of prepared and impromptu situations while using a wide range of vocabulary and idiom appropriate to their level.

Listening

Students learn to understand and follow instructions, understand a normally paced conversation from various sources on a wide variety of topics, recognize

many types of discourse and main ideas, and draw conclusions.

Reading

Students learn basic skills required to read a variety of authentic material including literary and non-literary texts at their own level. As they progress towards transition, reading broadens to include science and social studies topics. Students will access a variety of resources, including library, class and online resources. Home reading is an essential part of the program.

Writing

Students will engage in writing so they can communicate effectively and appropriately in various styles or genres with a good degree of fluency and accuracy. This includes the use of appropriate grammatical structures, cohesive devices, appropriate vocabulary, spelling and varied idioms.

Throughout the term, student progress is continually measured using a language continuum (see continuum on <http://www.tedais.org/programs/english-language-center.html>). At the end of each term, students will be assessed to evaluate progress in reading, writing, listening and speaking and to make decisions regarding transition. Parents will be informed by letter if students are being transitioned to a new class.

Art

Art is a critical aspect of primary education. Students will learn about the elements and principles of art with new media materials and ideas. They will experiment with a variety of media to discover and explore artistic concepts, to acquire skills, to gain experience and attain satisfying results while creating.

Mr. Joey

They will use a variety of lines, symmetrical and asymmetrical shapes, warm and cool colors, texture, mix a range of light and dark colors and produce two and three dimensional works.

Ms. Lyn

Term	Units of work	Materials
1	DRAWING PAINTING Line, shape, color, value, texture PRINT MAKING Line, shape, color	pencil, colored pencil, crayons, oil pastels, , string, markers, paper, scissors, tempera paint, tempera block, palette
2	PAINTING Line, shape, color, space MULTICULTURAL Art & craft from other countries including China DIGITAL MEDIA	tempera paint, water color, brush water container, scissors, glue, glue stick, string

3	DRAWING PAINTING Line, shape, color, texture MIXED MEDIA Shape, color, value, texture	sponge(roller), tempera paint, string, stamp, brush, palette
4	MIXED MEDIA Shape, color, value, texture PAINTING Line, shape, color, space SCULPTURE Shape, space, form	glue, glue stick, acrylic paint, news paper, scissors, pencil

Chinese

We believe that an important part of settling into a new country is to encourage all students to develop an appreciation for Chinese culture. The Primary School Chinese Language Program is designed to accommodate both those students who wish to study the language in depth and those who wish to develop language knowledge and skills to facilitate communication in our host country community.

Mr. Gao

At all grade levels, students gain cultural knowledge through a variety of activities such as Chinese Festival activities (New Year, Mid-festival etc.), field trips, after school clubs, songs, drama, Chinese storytelling, cultural fairs etc. Teachers use various approaches to create an experiential learning experience.

Ms. Sue Zhang

Grade 1-5 students attend Chinese languages class for four periods each week. All Grades 1 – 5 students who are fully participating in regular classes are enrolled in the Chinese Language Program. Starting from Grade1, students are divided into different groups according to the student's level of proficiency.

Ms. Li

Level 1: is designed for students with little or no previous experience in Chinese. The teaching in this level is theme based. After finishing this level, students can understand and use familiar, everyday expressions and very basic phrases. They can introduce him/her self and family members and can understand questions about personal details such as where he/she lives, people he/she knows and things he/she has.

Term 1	Term 2
<ul style="list-style-type: none"> ➤ Greeting ➤ Classroom Language ➤ Family ➤ Numbers and times ➤ Calendar & Weather 	<ul style="list-style-type: none"> ➤ Countries and Languages ➤ Colors and Shapes ➤ Body parts and illness ➤ Clothing

➤ Directions	➤ Hobby
--------------	---------

Level 2: suits students who have a basic knowledge of the Chinese language. Students at this level will learn to say very simple Chinese words or sentences to fulfill the basic needs of communication. The teaching in this level is theme based. After finishing this level, students can interact with others through question and answer format; using simple sentences to communicate about personal details and interests.

Term 1	Term 2
<ul style="list-style-type: none"> ➤ Greeting ➤ Classroom Language ➤ Family ➤ Numbers and times ➤ Calendar & Weather 	<ul style="list-style-type: none"> ➤ Countries and Languages ➤ Colors and Shapes ➤ Body parts and illness ➤ Clothing

Level 3: is designed for those students who have studied Chinese oral and written language for more than three years. It is an advanced program for neo-native Chinese speakers. After finish this level, students can understand the main ideas of age appropriate texts on a particular topic. Students can interact with a degree of fluency and spontaneity that makes regular interaction with native speakers quite possible without strain for either party. Students can produce clear, detailed text on a range of subjects and explain a viewpoint on a topical issue giving the advantages and disadvantages of various options.

Term 1	Term 2
<ul style="list-style-type: none"> ➤ Growing ➤ Festivals & Holidays ➤ Legend ➤ Beauty of nature ➤ Dream and future ➤ Merit and virtue ➤ Science 	<ul style="list-style-type: none"> ➤ personification ➤ Science of nature ➤ Merit and virtue ➤ Good habit of learning ➤ Environment Protection

Level 4: is an advanced program designed for fluent native and neo-native speakers. Students of level 4 can speak fluent Chinese and they focus mainly on reading and writing. After finish this level students can understand a wide range of demanding, longer texts appropriate to their age. Students can use language flexibly and effectively

for social and academic purposes and can produce clear, well-structured text on a variety of subjects.

Music

Music brings an important dimension to the educational program of the TEDA International School. Music education draws upon personal feelings and experience as well as on logical and intellectual thought. It is an integral part of every students' education. The primary music program ensures the development of the whole person, expanding the world of ideas and self-expression for students. The diverse activities in the music program are designed to engage students of various cultures, ability levels and interests. The program includes the study of music fundamentals and appreciation, performance, and vocal instruction for students in all grades and for all levels of ability. The program helps to create lifelong learners of music.

Ms. Vicky

Information Technology

In grade 2, students will explore different tools to edit graphics in drawing programs and other applications. They will draw illustrations with combination of different tools and combine graphics with their illustrations.

They will continue to take challenges with projects that require a fair amount of typing. In addition they will also use online educational resources to compliment their learning of core subjects. They will present and share their work using different applications which incorporates text and graphics. The students will be assessed continuously throughout each term; there is no formal assessment at this level.

In addition to learning to use the applications each week 20 minutes are dedicated to learning and improving typing skills. Another 20 minutes are solely focused for practicing their math skills using IXL an online program.

Term	Units of work	Connection to core subject areas
1	In term 1 the students will learn to present work through slide shows. They will also incorporate graphics and create illustration.	Science :-life cycles of plants and animals Math :- money Social studies:- communities
2	In term 2 the students will learn to make tables and organize data in tables. Use and format graphics and text. They will also use online interactive resources to review their learning.	Science:- weather Language arts: - sequential writing. Social studies: map, globe n graphs
3	In term 3 they will publish their writing with graphics and illustrations. Explore and get creative with 2D and 3D shapes.	Language arts:- narratives, reports Math:- Shapes Social studies:- past to present
4	In term 4 students will continue to publish their work with a combination of different media.	Science:- matter and changes in matter Social studies:- environment and changes Language arts:- poetry, narratives

PE

The PE program is focused on motivating students to achieve physical confidence and competence through a wide variety of developmentally appropriate activities. Students learn specific skills related to fitness, rhythm and dance, gymnastics, and elementary games. They also learn a wide variety of locomotion and

Ms. Yuan Yuan

manipulative skills such as: skipping, galloping, jumping, throwing, kicking, hopping, running, catching, climbing, and overall balance.

During the summer months, each grade level completes 1 Term of swimming lessons. As skills develop, the children are able to join the TIS swim club.

The primary program also aims to equip students with necessary lifelong learning skills, such as good sports habits and sportsmanship through yearly tournaments in soccer, cross-country, badminton, swimming, and table tennis.

Library

All primary students have a scheduled visit to the library once a week to learn information skills and to borrow from the wide range of reading materials.

Students are welcome to visit the library at other times, recess, or after school to enjoy a 'wealth of words'.

Mr. Ricky

Student Support Services

Student Support Panel

All students struggle a little at times, especially when they move to a new school. They may feel seriously challenged by a particular part of their studies, or struggle with being away from their home country. Most problems of this nature are solved within the classroom and your child's teacher will be your point of reference.

When a student continues to struggle, the classroom teacher, principal and guidance counselor will work together to create a positive outcome with the student. In these situations, you will be a part of the process as we work together to help solve the problem.

**Learning Support
Mr. Jeff**

Counseling

The school's Guidance Counselor is available to counsel students on school or personal issues. The Counselor works with administration, faculty, and parents to assist in maintaining the physical, emotional, and social well being of our students. The counselor assists students in defining goals; and directs programs that help students develop values, conflict resolution strategies, social skills, and needed study habits.

**Counselor
Ms. Su Jin**

Health Focus-VIVA-Virtues in Action

The Guidance Counselor and Support Teacher come to the classroom once a month to share activities and talk about issues that impact student well-being and development. The students learn in practical ways how to be a good friend in an international school environment.

Learning Support

The classroom teacher is available in their classrooms one afternoon per week until 4:00pm to provide academic assistance to students in need of extra help. This is not a homework club. The teacher will contact you if your child needs to attend these sessions

so that alternative transportation arrangements can be made if necessary. Academic assistance takes priority over other after-school activities and we would appreciate your support were such a request be made.

Grade 2 Support – please refer to club schedule

Additional English Language Support

Many non-native English families find their children benefit from having a home tutor for English language. There are a number of TA's from our school who provide this service. There are also some High Students from time to time who are available. Information regarding tutoring is available in the Primary Office.

Please encourage your tutor to connect with the classroom teacher. This will increase the benefit to your child.

Uniform

Uniforms are available at the Corner Store (in the cafeteria). Price Information will be on the website before school starts. Up to date prices are on display in the Corner Store.

For further information regarding Primary School Policies and Procedures, please refer to the TIS Primary School Handbook 2017-2018 on www.tedais.org .
